XYLO
THE TIME OF YOUR LIFE

Luxury on wheels

Marking the Xylo's 2nd anniversary Mahindra has come out with the Xylo Celebration Edition II

After being a success story for the last two years, Mahindra Xylo has launched a Celebration Edition II which will be available for just over 1000 buyers. This new special edition variant gets an elegant look with luxurious Italian leather upholstery providing an upper crest feel. The steering wheel and the gear knob are also leather wrapped making the competition a pale rival. The Xylo's 2.5-litre engine, with 112bhp (83.2 KW), easily over powers the Toyota Innova without compromising on fuel efficiency. The Xylo comes with new Extra Stability Technology (E.S.T) which ensures great control and minimum body roll at high speeds and on winding roads. The Xylo has changed the market by making under-powered and under-equipped saloons look over priced.

The beige interiors gives the cabin a luxurious and spacious feel

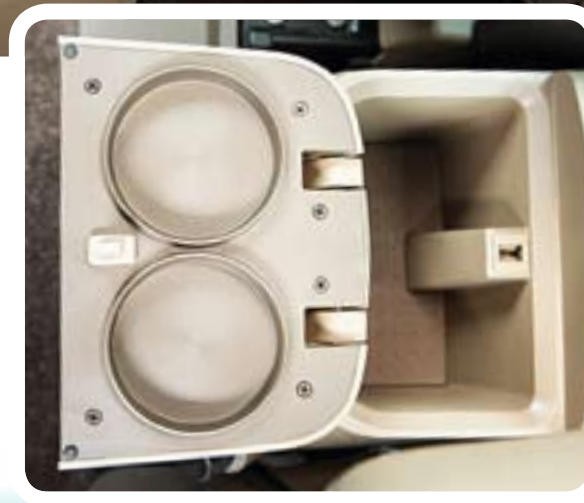

Only the Mahindra Xylo comes with flat bed front seats scoring high on comfort

First class comfort level for passengers as the three rows get individual air conditioning vents making summers a breeze in the Xylo. Passengers in the second row get foldable snack trays with cupholders and storage space in a fully loaded Xylo E8

Every passenger is treated like a king in the Mahindra Xylo. All the seats are big, sumptuous and comfortable captain seats which come with individual armrests making sure each passenger is pampered into the arms of serenity. All the seats also come with headrests. The Celebration Edition II's unique feature is that it gets a three-pin plug point, which is the first in India, and USB port making sure everyone's need is taken care off.

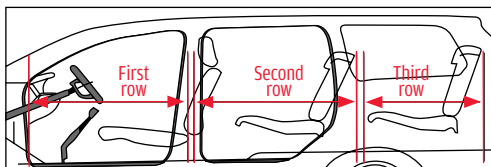

The suave and sophisticated look of the Xylo lets the world know that you have arrived in life

The Xylo Celebration II gets ski racks giving it a sporty look and makes it stand out from the rest of the pack

The Xylo comes with Digital Drive Assist System which features instantaneous mileage, gear information and outside temperature making it technically advanced. It tells you how much distance it can cover before running out of fuel. The Xylo also comes with engine immobiliser which helps in keeping thieves away. The Intellipark reverse assist warns you of an object nearby making reversing effortless in the Xylo. It also comes with Anti-lock brakes, which helps to steer without losing control under hard braking. The fully loaded Xylo E8 comes with Dual SRS airbags, ABS, 2-DIN music system and 15-inch alloy wheels adding to its sporty looks.
