

LEGS THIS HAPPY.
EVEN ON LONG DRIVES.

ATUL KASBEKAR
ACE FASHION PHOTOGRAPHER

"LEGS ARE HAPPY IN A XYLO,
EVEN IN THE THIRD ROW. ASK ME I'M 6 FOOT 3."

In my line of work, I deal with long legs a lot. And my Xylo keeps the leggiest models happy with its best-in-class legroom. I'm 6 foot 3 and my legs feel relaxed in the Xylo, even in the third row. And happy legs make the longest drives enjoyable.

"IT'S AN ECOSYSTEM OF CONVENIENCES."

Seats collapse into flat beds, snack tables pop up for on-the-go snacking, individual AC vents surround cool me. That's the most comfortable I've ever been in a car. The Digital Drive Assist System lets me know how the car's doing, to keep my mind at ease. The intellipark reverse assist system practically parks the car for me. The 2-DIN audio system supports music in all the complicated new formats, but is still fabulously simple to use. And that's the best part of all the technology fitted into the Xylo - its simplicity.

" ITS FLAT BED SEATS, PAMPER
EVEN THE TALLEST MODELS."

You wouldn't believe it, but this car gets used just as much when it's standing still. That's because of the one-of-a-kind seats. Drop the front and middle row seats and you've got two flat beds. Long enough to let the tallest models catch up on their vital beauty sleep, and me my power naps. Together with the surround cool dual ACs, individual vents and adjustable armrests, I get head-to-toe comfort everytime.

Underseat storage space

Mobile & Laptop charging point

Bottle holder

Inside, it feels like an ecosystem of conveniences. Snack tables pop up, to take the gadgets and snacks off my lap. Individual AC vents keep me cooled the way I want. To keep my mind at ease, this car updates me on everything from the current speed, temperature and humidity to the current mileage and more. All through the Digital Drive Assist System. The intellipark reverse assist system

has sensors in the Xylo's bumper, that practically park the car for me. Pretty high tech, I'd say. The 2-DIN audio system supports music in all the complicated new formats, but is still fabulously simple to use. And that's the best part of the technology fitted into the Xylo - its simplicity.

" B O L D A N D S P I R I T E D , T H A T ' S M Y S T Y L E . "

Being a fashion photographer, I don't use just any car. The slotted grille up front leads the way with just the right amount of aggression. The body lines and contours are bold. While the snug headlamps and rounded edges give the car that racy spirited look. Clear lens headlights, broad doors, large glasses and chrome embellishes add that final touch of class, that makes the car appeal to my sense of design.

mEagle CRDe engine

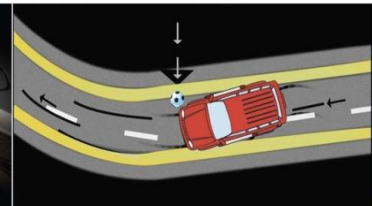

Shooting at remote locations means that I have to zip quickly between destinations across the country. And the mEagle CRDe engine never lets me down. I relish every bit of the 112 BHP it dishes out as I cover highways and ghats with equal grace, even on a full load.

" I LIVE FAST, BUT SAFETY IS ALWAYS A PRIORITY."

An always-travelling lifestyle comes with its share of dangers. Thankfully the Xylo comes loaded with a long list of safety and security features. Like the crumple zones that collapse and airbags that inflate to protect me during impact. And the anti-lock brakes that help me keep the car in control while braking hard on slippery surfaces.
